Department of Defense Base Structure Report FY 2014 Baseline

I. Introduction

The Base Structure Report (BSR) – FY 2014 Baseline is a snapshot of real property data collected from the Military Departments as of September 30, 2013, and serves as the baseline for the start of the next fiscal year. This report has become a very popular item for many diverse users, and we have tried to adjust the data displays to reflect the most common information requested from DoD regularly. This year's BSR is being published significantly later than in past years due. This year has seen a series of new data systems development and efforts to update or modernize the collection process, so we experienced some temporary data anomalies that needed to be researched. We held the publication of the BSR to resolve these areas of concerns before publication. Even though it is a late release, it was deemed important to have a version of this year's data available for all who use this report. However, it should be noted that there may be some variances between last year's data and this year's data with the Army's acreage information.

This BSR presents data that represents a consolidated summary of the Military Departments' native real property inventory (RPI) data submitted annually in accordance with DoD Instruction 4165.14, "Real Property Inventory and Forecasting", to support the requirements of title 10, U.S. Code, section 2721, "Real Property Records." The consolidated database, known as the Real Property Assets Database (RPAD), is the source used for this report and many other DoD RPI reporting requirements throughout the year. After this year's edition of the BSR, our RPAD data will be migrating to a new and more robust data platform. The new platform should allow us to consolidate and analyze the data faster, facilitating an earlier release date for next year's BSR.

As one of the Federal government's larger holders of real estate, the DoD manages a global real property portfolio consisting of more than 562,000 facilities (buildings, structures, and linear structures), located on over 4,800 sites worldwide and covering over 24.7 million acres. While the BSR is not intended to answer every single question about DoD's real property portfolio, it should provide most readers with accurate background information about the vast majority of issues regarding DoD's real property infrastructure.

II. Organization

The BSR – FY 2014 Baseline provides a comprehensive listing of all sites owned or managed by DoD based on the criteria provided in Section III of this report. The portfolio summary provides an overview of the size of the DoD inventory, followed by the summary information, first arrayed alphabetically by State for all of DoD, and then repeated in sections dedicated to each Service. The last section provides summary details on sites managed by the States as part of the Army National Guard. Other Reserve Component sites are reported as part of their respective Military Department.

Department of Defense Base Structure Report FY 2014 Baseline

When using this report, it is important to understand that the physical base structure is dynamic, and will naturally change throughout the year (new construction, demolitions, etc.). Since the BSR is intended to be an annual “snapshot” of the DoD’s physical plant, the data is captured at the end of the fiscal year - for this report on September 30, 2013. Sites and assets will continue to be listed in the BSR until they are legally removed from the inventory, even though they may be in various stages of activity, including unused or awaiting disposal. The legalities involved in actually transferring deeded property may result in an asset’s legal property record remaining in the individual Military Service inventories long after the actual decision has been made to transfer that asset to another organization or to demolish it. For the purpose of this inventory reporting, a site is defined as a specific geographic location containing real property assets. Each site is then assigned a Real Property Site Unique Identifier (RPSUID), along with a name specific to that location. Sites are usually assigned to military installations even though they may be physically separated in location.

The last section of this report reflects authoritative personnel data as reported by the Defense Manpower Data Center (DMDC).

III. Display Criteria and Definitions

This inventory data is extracted directly from the Military Departments’ authoritative real property inventories as submitted to the Office of the Secretary of Defense (OSD) for consolidation in RPAD. When submitted, the data is certified in writing by that Military Department’s Senior Real Property Officer as representing valid and accurate data.

– **Display Criteria:** To qualify for individual entry in the BSR, a DoD site located in the United States must be larger than 10 acres **AND** have a Plant Replacement Value (PRV) greater than \$10 million. If the site is located in a foreign country, it must be larger than 10 acres **OR** have a PRV greater than \$10 million to be shown as a separate entry. Sites that do not meet these criteria are aggregated as an “Other” location within each state or country. Since Army National Guard State sites tend to be smaller, the criteria were adjusted so that sites larger than five acres **AND** have a PRV greater than \$5 million are shown. Army National Guard sites not meeting this criteria are aggregated as “Other” for each state.

– **Site:** Physical (geographic) location that is or was owned by, leased to, or otherwise possessed by a DoD Component. Each site is assigned to a single installation. A site may exist in one of three forms: *land only* – where no facilities are present; *facility or facilities only* – where underlying land is neither owned nor controlled by the government, and *land with facilities* – where both are present.

– **Installation:** A military base, camp, post, station, yard, center, homeport facility for any ship, or other activity under the jurisdiction

Department of Defense Base Structure Report FY 2014 Baseline

of the Department of Defense, including leased space, that is controlled by, or primarily supports DoD's activities. An installation may consist of one or more sites, or may be an administrative designation. Though this report focuses primarily on sites, Table 1 represents the number of entries designated as active installations as identified by the Military Departments in the Installations Table.

Table 1. Active Installations from the RPAD Installations Table

- **Component:** Designates the primary DoD Component for the owner/reporter of a site, either Active, Guard, or Reserve.
- **Name Nearest City:** Identifies the name of the city where the real property assets are located or name of the city nearest the assets.
- **Building:** A roofed and floored facility enclosed by exterior walls and consisting of one or more levels that is suitable for single or multiple functions.
- **Structure:** A facility other than a building or linear structure constructed on or in the land (e.g., tower, storage tank, wharf, pier).
- **Linear Structure:** A facility whose function requires that it traverse land (e.g., runway, road, rail line, pipeline, fence, pavement, electrical distribution line) and is reported by a linear unit of measure.
- **Buildings Owned Count:** Number of buildings owned by the Federal Government.
- **Buildings Owned Square Feet (SqFt):** Square footage for buildings owned by the Federal Government.
- **Buildings State Owned Count:** Number of buildings owned by a specific State or Territory.
- **Buildings State Owned SqFt:** Square footage for buildings owned by a specific State or Territory.

Department of Defense Base Structure Report FY 2014 Baseline

- **Buildings Leased Count:** Identifies the number of leased buildings.
- **Buildings Leased SqFt:** Reflects the total square footage for leased buildings.
- **Buildings Other Count:** Number of Federal buildings where the legal interest is other than owned or leased.
- **Buildings Other SqFt:** Square footage for Federal buildings where the legal interest is other than owned or leased.
- **Acres Owned:** Identifies the total number of acres owned by the Federal Government.
- **State Owned Acres:** Identifies the total number of acres at sites owned by the State.
- **Total Acres:** Identifies the total number of acres at the site. Includes government owned land, public land, public land withdrawn for military use, licensed and permitted land and acreage of foreign land used by DoD.
- **PRV (\$M):** Indicates the total Plant Replacement Value for all facilities (buildings, structures, and linear structures). This value represents the calculated cost to replace the current physical plant (facilities and supporting infrastructure) using today's construction costs (labor and materials) and standards (methodologies and codes).

The standard DoD formula for calculating PRV is:

$$\text{Plant Replacement Value} = \text{Facility Quantity}^1 \times \text{Construction Cost Factor}^2 \times \text{Area Cost Factor}^3 \times \text{Historical Records Adjustment}^4 \times \text{Planning and Design Factor}^5 \times \text{Supervision Inspection and Overhead Factor}^6 \times \text{Contingency Factor}^7$$

1 Quantity of assets from the real property inventory database.

2 Construction cost as published in the DoD Cost Factor Handbook.

3 A geographic location adjustment for costs of labor, material, and equipment.

4 An adjustment to account for increased costs for replacement of historical facilities or for construction in a historic district; the current value of the factor is 1.05.

5 A factor to account for the planning and design of a facility; the current value of this factor is 1.09 for all but medical facilities and 1.13 for medical facilities.

6 A factor to account for the supervision, inspection, and overhead activities associated with the management of a construction project; the current value of the factor is 1.06 for facilities in the continental US (CONUS) and 1.065 for facilities outside of the continental US (OCONUS).

7 A factor to account for construction contingencies; the current value of the factor is 1.05.

IV. Portfolio Summary

The DoD manages a worldwide real property portfolio that spans all 50 states, seven U.S. territories, and 40 foreign countries. The majority of the foreign sites are located in Germany (174 sites), Japan (113 sites), and South Korea (83 sites). Locations of DoD sites by Military Service and Agency are depicted in Figure 1.

The DoD collects data on assets as buildings, structures and linear structures as the framework for cataloging the Department's real property portfolio. Table 2 shows the breakout of buildings, structures, and linear structures by Military Department for the DoD worldwide. The PRV is a useful mechanism for calculating the cost to replace the existing inventory and does not reflect actual construction or acquisition costs.

Linear Structures Portfolio

DoD manages over 101,000 linear structures throughout the world, valued at over \$154 billion. DoD's linear structures portfolio by legal interest is depicted in Table 5. DoD owns 86% of the more than 66,000 linear structures it manages. The preponderance of these are Utilities and Ground Improvements, such as roads. The predominant use of the linear structures by PRV is shown in Figure 4.

Land Portfolio

DoD manages over 24.7 million acres of land worldwide. More than 98% of that land is located in the United States or in U.S. Territories. Approximately half of the land controlled by DoD (48%) is government owned. The Army Force controls the largest percentage of DoD's land (44%), followed by the Army (40%). Figure 5 and Table 6 depict the land portfolio.

State Army National Guard Portfolio

The Army, in collaboration with the National Guard Bureau, manages domestic real property with individual States and Territories. Table 7 shows Army National Guard sites owned or managed by DoD with the States and Territories.

The State portfolio consists of more than 73,000 facilities (valued at nearly \$29 billion) and 1.2 million acres located on more than 2,600 sites in the United States and Territories. Table 8 shows the number of State and Territory sites and assets, PRV by type (buildings, structures, linear structures), and number of acres by location.

V. Personnel Assigned by Military Installations

In previous years' reports, the personnel data was submitted by the Services' personnel offices. We then mapped the provided personnel assigned data to the various sites as portrayed in the real property inventory to try to make them integral to the site listing. Beginning last year, the Office of the Under Secretary of Defense/Personnel and Readiness (OUSD (P&R)) has partnered with us to create this section in the BSR identifying assigned military and civilian personnel by installation. In order to maintain the integrity of their data report, the installation names in this new section may not exactly correspond to our Site names in other sections of the BSR. We are continuing to work with the OUSD (P&R) to incorporate the RPSUID into their reporting system. This will provide for better linking between real property and personnel data in future reports.

Much like the main body of the report, the personnel data is arrayed by State or territory, then by installation. Just as it was arrayed last year, the data includes personnel for locations in the Continental United States, Alaska, Hawaii and the US Territories. The civilian population includes non-exempt, part time and temporary civilian employees. Non-appropriated funded civilian employees are not included. The data are inclusive of all civilian personnel reflected in the Defense Civilian Personnel and Assignment System and includes all political appointees filling prescribed positions. The military population does not include the prisoner population, but does include those who are strength accountable for Active Duty (which includes transients) and Selected Reservists for the reserve population. Transients are handled differently by the Services; some Services assign a transient unit to these members, while other

**Department of Defense
Base Structure Report
FY 2014 Baseline**

Services report the departing unit information during the transfer. Most transients are counted under the “Other” category in this report.

The source of the personnel data is the DMDC, a field activity of the OUSD (P&R). Questions on this section of the BSR should be addressed directly to the providers of the data at DMDC, Mr. Kit Tong or Mr. Tim Powers, at (831) 583-2400.
